

EPOCH 12V 460AH V2-T ELITE SERIES

Machine Information

Condition	New
Brand	Epoch
Category	Batteries

The Epoch 12V 460Ah V2-T Elite Series LiFePO4 battery stores 5.89kWh in a single 97 lb Group 8D enclosure for marine house banks, RVs, and off-grid solar systems. Its distinguishing feature is a user-serviceable 400A Eaton Class T fuse built into the battery, reducing the need for a separate external fuse arrangement. The pack supplies 230A continuous output and includes native Victron CANBus communication, Bluetooth monitoring, internal heating, and IP67 waterproof construction. Compatible Cerbo GX integration helps incorporate battery information into a wider power system. Rated for 4,000+ cycles and backed by an 11-year warranty, it is a high-capacity deep-cycle solution, not a cranking battery.
